

WADWORTH

TASTING NOTES

MALT 'N' HOPS 4.5% ABV.

In 1992, Malt 'n' Hops was the first harvest beer produced using undried hops and was unique to Wadworth. Since then, the idea has spawned many imitators.

Unkilned green hops used within hours of picking impart a surge of cleansing orange zest flavours and refreshing bitterness which balances the malt-sweet palate of this pale harvest ale.

Michael Jackson, The Beerhunter said, "*The colour of ripe barley and malty sweet to start, the beer delivers a surge of cleansing flavours and a late finish of appetite arousing bitterness!*"

Brewed in September, Malt 'n' Hops uses exclusively Goldings hops, harvest-fresh from the farm with bitterness units of 30-35 depending on the harvest. 98.5% pale ale malt and just 1.5% of crystal malt give the beer a pale golden colour with a rating of 15.
